# PRECAST ACOUSTIC FACINGS

ACOUSTIC FACING TILES PROVIDE A MODULAR SOUND ABSORPTION SOLUTION TO A WIDE RANGE OF ACOUSTIC ISSUES

---

LIGHTWEIGHT

---

---

VERSATILE

---

---

THERMALLY INSULATING

Durisol precast acoustic facing tiles provide a modular sound absorption solution to a wide variety of acoustic problems. The tiles can be attached to any existing flat wall surface, making them well suited for retrofit applications.

Our precast acoustic facing tiles are made of proprietary Durisol material consisting of specially graded wood particles bonded with cement. The tiles are particularly effective at dampening reflected noise in loading areas, courtyards, shooting ranges, railway or highway cuts, and between parallel building walls.

#### TYPICAL APPLICATIONS

- Commercial buildings
- Retrofit applications
- Loading areas
- Shooting ranges
- Railways
- Highways

#### Durisol material

Lightweight, absorptive, porous, rigid, non-combustible, vermin and fungus proof, thermally insulating, freeze-thaw resistant, durable

#### Retrofit applications

Can be attached to any flat building wall surface

#### Aesthetic possibilities

Wide range of colours and finishes

## PANEL DETAILS

Typical application showing our 'standard' size of 600x900mm

# Durisol®

Durisol® is the market leader in the noise barrier wall industry. We manufacture and supply a series of unique panel and post wall systems - including our Durisol® precast sound absorption panels and transparent ACRYLITE® Soundstop sheets, as well as narrow footprint retaining walls and fire-rated barriers. Our first noise barriers were installed in Canada in 1977 and in the US in 1986 and are all still in service today. With over 40+ million square feet of wall installed to date, Durisol® noise barriers stop the noise of industrial warehouses, utility enclosure sites and urban infrastructure of all kinds right across North America.
